# PRESS RELEASE

## Mach Machine, Inc. Expands Raw Material Processing Capabilities

Hudson, MA; October 27, 2015: Mach Machine has expanded its raw material processing capabilities with the addition of a Mastercut S-300HB Automatic Horizontal Saw. Boasting a 12" round cutting capacity, self-feeding index lengths of 16", and 9 indexes per cut (total of 144" material feed), the S-300HB is capable of significantly reducing raw material cutting operations of production jobs. With a 25 foot infeed table the largest lengths of materials can be fed through the saw with ease. The S-300HB's 5 HP motor, is capable of achieving 350+FPM blade speed and material specific down feed controls results in excellent cut repeatability and faster cuts per cycle.

If you have any production requirements and would like to receive a quote, you can contact us at [sales@machmachine.com](mailto:sales@machmachine.com) or give us a call at 978-274-5700.
